\*USGS maintains a continuous monitoring program that collect salinity at a few points in the Bay. You can find this data at [http://sfports.wr.usgs.gov/Fixed\\_sta/](http://sfports.wr.usgs.gov/Fixed_sta/)  
Reference points are at Channel Marker 9 (San Pablo Bay) and Mare Island Causeway (lower Napa River). This data is for 1 year, and there are year-to-year variations too.
